

For entrepreneurs who need a representative or portfolio-style website, the offer includes:

- o Reliable and Fast Hosting – rental of online server space where the website will be available 24/7.
- o Domain Registration (purchasing the website address) in agreement with the client.
- o Creation of a modern, minimalist website design, user-friendly and tailored to your business (up to 3 pages).
- o Content writing or optimization focusing on clarity, quality, and relevant keywords.
- o Basic technical and On-Page SEO optimization for better Google ranking and increased visibility in organic search (results without paid advertising).
- o Full mobile optimization to ensure the website looks perfect on all screens, along with page load speed optimization.
- o Built-in protection against bots and malicious attacks, with secure HTTPS connection and data encryption via SSL/TLS certificate.
- o Integration with Google services for improved visitor tracking and online presence monitoring.
- o One business email address on the domain is free for the first year. After that, charges apply depending on the chosen package and features.
- o Support for content, product, or service updates on the website, with no fees for a reasonable amount of changes. Fast and easy communication via WhatsApp, Email, iMessage, or phone calls whenever needed.
- o Creation of website backups to enable restoration in case of unforeseen events.
- o Regular maintenance and updates to keep the website secure and fully functional at all times.

PRICE: 720 EUR

Hosting, domain, and basic maintenance are provided free of charge during the first year. In subsequent years, these services are billed separately.

The work schedule is focused on one project per month to ensure the highest quality and level of dedication.
